PREVENT KITCHEN FIRES!

Kitchen Safety Tips

- Watch what you heat when frying, grilling, or broiling food.
- Turn off the stove if you leave the kitchen.
- Keep the stove top clean and clear.
- Turn pot handles in towards the back of the stove.
- For small grease fires on the stove, smother the fire by sliding the lid over the pan and turn off the stovetop. Leave the pan covered until it is completely cooled.
- For an oven fire turn off the heat and keep the door closed.
- Have a children and pets “free zone” (3 feet from the stove) when an adult is cooking.
- Open containers slowly after they are removed from the microwave, as hot steam escaping from the container can cause painful burns.
- Know your local emergency number, have working smoke alarms in place, and practice your fire escape plan.
