

Protect Your Family From Fire!

- Test smoke alarms monthly
- Practice your escape plan with a meeting place outside
- Stay in the kitchen while you're frying, grilling or broiling food
- Have a three foot "kid-free-zone" around the oven/stove
- Never use your oven to heat your home
- Keep anything that can burn three feet away from heating equipment
- Clean the lint filter on your dryer before each load
- Never use extension cords as permanent sources of electricity inside your home
- Blow out candles when you leave a room
