

Dear Editor,

The Board of Fire Commissioners for Lake Stevens Fire recently met about a resolution to place an EMS levy lid lift on the November election ballot. During this meeting we heard from a couple different community members who shared their stories about how EMS has had a positive impact on their lives. These stories were very moving for us to hear, and we want to thank you for sharing.

As a long-time resident of Lake Stevens, I have always been impressed with the high level of service that our firefighters and paramedics deliver. Our emergency personnel are very well trained, perform at a high level, and are ready to respond at all hours to provide the care and assistance you need.

I also appreciate the outstanding support this great community gives to Lake Stevens Fire. Our community cares about people, which is indicative of the emergency services we are able to provide because of this support. On behalf of Lake Stevens Fire, we would like to say it is an honor to serve your family each and every day.

Sincerely,

Jim Steinruck

Chair, Board of Fire Commissioners
